It can*:

- **show a periodic table with detailed information about every element**
- **supports integrals**
- **graph functions (uncertain)**
- **allow you to make your own test**
- **makes generated calculus questions**
- **play various games**
- **play music, sound**
- **when you are going to turn on sound, it will require you to type the 4 digit number shown, so it prevents accidental sound during class.**
- **lots of fun math tools (e.g. vector field generator)**
- **and much, much more!**

***(THIS IS WHAT I AM PLANNING TO HAVE, THIS IS STILL A WORK IN PROGRESS)**

Uuu is a scientific calculator that is also designed to train you with precalculus/calculus+ and physics skills.
